MALLIKARJUNA MS

Product Manager | AI & HR Tech

Bengaluru, India | +91 9611248401 | Portfolio | arjunsiddesha@gmail.com | LinkedIn

SUMMARY

Product manager in HR tech with hands-on experience across both recruitment and HR management software. Takes features from a customer problem to launch: shaping requirements, working with engineering, testing before release and measuring adoption after. Experienced in AI features, product integrations and self-serve onboarding, with customers across the Gulf region, Asia and North America. Earlier led recruitment teams, so understands the end user's daily work first-hand.

PROFESSIONAL EXPERIENCE

Founder's Office - Product & Design, Whitecarrot.ai Sep 2025 – Present

Product ownership

- Own the product roadmap for core recruitment features, AI capabilities and the ATS and HRMS integration.
- Turn customer, sales and support feedback into clear PRDs, user stories and acceptance criteria.
- Prioritise requests by customer impact, revenue and retention, and align stakeholders on scope and trade-offs.
- Run sprint planning and backlog grooming with engineering, and prototype new flows before development.

AI features

- Find practical AI use cases in the hiring process and define how success is measured.
- Shape AI features from idea to launch, including the knowledge base the in-product AI assistant answers from.

Launch, quality and customers

- Own QA before every release, and reproduce customer issues step by step for engineering.
- Plan launches: release notes, help articles, and training for sales and support teams.
- Track adoption and usage in PostHog and HubSpot, and use the data to decide what comes next.
- Onboard and train customer accounts, and work with the HRMS partner team so hiring and employee data stay in sync.
- Use AI tools such as Claude and ChatGPT daily for research, specs and feedback analysis.

Talent Acquisition Specialist, Fresh Prints Dec 2024 – Aug 2025

- Managed end-to-end hiring across multiple international markets, using an ATS every day.
- Introduced AI and automation tools to cut manual screening and scheduling work.

Talent Acquisition Specialist, Ditto Insurance Aug 2023 – Oct 2024

- Led a team of recruiters and built the hiring process from scratch: workflows, KPIs and training.
- Shared weekly hiring dashboards with leadership to guide hiring decisions.
